EXPERIENCE

Frontend Developer & Instructor

March 2023 - Jan 2024

ValuemaxCoder'shub

UI Ibadan, Nigeria

- Taught HTML, CSS, and JavaScript fundamentals to beginners, helping students build their first responsive websites.
- Guided students through hands-on mini projects such as landing pages and personal portfolios to reinforce learning.
- Developed basic frontend projects using HTML, CSS, JavaScript, React, and Bootstrap.

Freelance Frontend Developer & Instructor

Jan 2024 - Present

Self-Employed

Remote

- Taught foundational frontend development concepts including HTML, CSS, and JavaScript to beginners.
- Created and maintained personal projects such as portfolio websites and simple web apps to hone practical skills.
- Developed hands-on tutorials and guided learners through basic projects using React and Bootstrap.

PROJECTS

Membership Portal Admin Pages. Improved the admin interface to make it more interactive and user-friendly, focusing on usability and layout enhancements. ([View on GitHub](#))

Transport and Logistics App. Built a transport app from a Figma design to practice frontend skills and create a responsive UI with clean code. ([View on GitHub](#))

Great Nigerian Students App (Paused). Started frontend development before project was paused; gained experience working with design and collaboration. ([View on GitHub](#))
